- Large items (appliances, furniture): Fixed delivery fee of ₹99–₹499 depending on item.

4. Delivery Coverage

ShopEasy delivers to over 100% of serviceable pin codes across India. Delivery availability depends on the seller's shipping settings and the delivery partner's coverage in that area. You can check delivery availability on the product page by entering your pin code.

5. Order Tracking

All orders can be tracked in real time through the following channels:

- ShopEasy.in website: 'Returns & Orders' section.
- ShopEasy mobile app: Push notifications and order tracking.
- Email and SMS updates at every milestone (dispatched, out for delivery, delivered).

- Third-party courier tracking via the courier's website using the AWB number provided.

6. Failed Delivery Attempts

If a delivery attempt fails, ShopEasy will make up to 3 delivery attempts on consecutive business days. After 3 failed attempts, the package will be returned to the seller and a refund will be initiated. To reschedule delivery, contact customer support or update your delivery instructions in the app.

7. Delivery to Alternate Address

Customers can add multiple delivery addresses to their ShopEasy account. You may also update the delivery address after placing an order, provided the order has not yet been dispatched. Address changes are not possible once the item is out for delivery.

8. Undeliverable Items

Certain items cannot be shipped to specific locations due to legal restrictions, carrier limitations, or hazardous material regulations. These include:

- Flammable or explosive materials.
- Certain batteries and electronic devices to remote areas.
- Items restricted by state or local regulations.

9. International Shipping

ShopEasy currently does not support outbound international shipping for domestic orders. For international deliveries, customers are directed to ShopEasy Global Store. Import duties and taxes for items from ShopEasy Global Store are the responsibility of the buyer.
